## “I am because we are” UBUNTU

“Diversity drives innovation, when we limit who can contribute, we limit our ability to innovate” Telle Whitney

The education within Stanford Lake College goes beyond the academic acumen, hence we embrace the spirit of Ubuntu which has paved a way for generosity, community wellness and togetherness. We have already created an environment that welcomes everyone, which encourages our Staff, Students and Parents to value themselves and learn to respect the differences that exists within our community. This is clear indication that we are united and strengthened in diversity.

Our TED committee which comprises of Students and Staff holds frequent meetings where conversations and ideas are explored about the knowledge and experience of everyone in our community with regard to Transformation, Equity and Diversity. This allows us to understand the extent to which we embrace and promote Individual and institutional togetherness within our community.

This past two weeks, the Grade 8 and 9 students have engaged in meaningful conversations about inclusion and belonging in our school. The students were educated about treating everyone with dignity and respect, irrespective of who they are.

“In everything, then, do to others as you would have them do to you. For this is the essence of the Law and the Prophets.” Matthew 7v12

This coming month our students will be celebrating Youth day. It will be a day filled with fun activities and information sharing sessions.

“Diversity is being invited to the party, inclusion is being asked to dance” Verna Myers
